

Rental Check List

Twin Bunn Slush Machine

- Keep machine upright at all times.
Show customer barrel removal, augers & reassembly procedure. Instruct customer on proper water flush/cleaning of machine. (Machine must be flushed before returning to Valley Popcorn Company.)
- Plug machine in. Make sure barrels are clear of parts.
- Turn machine on. Check operation. Push snow-flare button. If DIG display reads “ICE” machine is running okay.
- MUST use original box for shipping/transport.
 - Does machine have:
 - Drip Trays
 - Lids (2-Double Slush 1-Single Slush)
 - Lids/Drip trays in separate.
- Check legs to ensure they are on tight.
